PROFESSIONAL SUMMARY

Electronics & Communication Engineering student with hands-on experience designing and building embedded systems, including autonomous robotics and sensor-based automation. Strong foundation in C, Python, and problem-solving through independent hardware projects. Currently expanding into software development and AI-powered applications, seeking an internship or entry-level role to apply and grow these skills.

EDUCATION

B.Tech, Electronics & Communication Engineering — SR University

2025 – 2028 (In Progress)

Diploma, Electronics & Communication Engineering — Bomma Group of Institutions

2022 – 2025 | CGPA: 8.54 / 10

Secondary School — Lakshya Talent School

Completed 2022 | GPA: 9.2 / 10

TECHNICAL SKILLS

- Programming & DSA: Python, C, Data Structures & Algorithms
- Embedded & Hardware: Embedded C, Assembly Language, MATLAB, Arduino • Tools: Microsoft Office
- Currently learning: Machine Learning fundamentals, AI application development

PROJECTS

Line Following Robot | Arduino, Embedded C, IR Sensors

- Designed and built an autonomous robot that follows a predefined path using IR sensor input
- Programmed real-time path-correction logic in embedded C
- Improved path-tracking accuracy by tuning sensor input and motor control response **Automatic Street**

Light Controller | LDR Sensor, Circuit Design

- Designed a smart lighting system that detects ambient light using an LDR sensor
- Automated ON/OFF switching based on real-time light-intensity conditions
- Reduced unnecessary power consumption versus a fixed always-on lighting schedule

STRENGTHS

Problem-solving · Teamwork · Analytical thinking · Quick learner

LANGUAGES

Telugu (native), English (professional), Hindi (professional)
